

## CAREER OPPORTUNITY

### Apprentice Welder

---

#### GENERAL

Formal Position:       Apprentice Welder

Department:           Mammoet Canada Western Ltd.

Reports to:             EMD Manager

#### Job description:

Mammoet is looking for an energetic individual to join our Edmonton branch as a 2<sup>nd</sup> or 3<sup>rd</sup> year apprentice welder. This position requires a candidate to repair, modify and/or fabricate equipment according to all Mammoet SHE-Q, business and quality standards, policies, and procedures.

#### Responsibilities (including but not limited to)

- Conduct all business in a professional, respectful manner
- Ensures that all assigned work is carried out in accordance with Mammoet, SHE-Q and Business Policies and Procedures.
- Report all near misses and incidents to the supervisor.
- Ensure that you are qualified to use the equipment to work with.
- Ensure that you attend and participate in every day's toolbox meetings prior to starting the work.
- Ensure that field-level risk assessments are completed, signed, and handed in.
- Ensure that work is completed according to given directions.
  - Understand the task.
  - Plan the work.
  - Address any concerns with the supervisor.
  
- Repair and/or modify lifting or transport equipment in a safe way and according to given drawings and procedures. Any concerns must be addressed with the supervisor.
- Fabricate equipment for lifting and/or transport safely and according to given drawings and procedures. Any concerns must be addressed with the supervisor.
- Inform the supervisor when new fabricated, repaired, or modified lifting or transport equipment is ready for inspection.
- Ensure that steel is stamped with the heat number before it gets used to assemble a lifting or transport device.
  
- Maintain good customer relations with clients and vendors.
- Fill in time sheets correctly and get them reviewed, checked, and approved by the supervisor before handing them in.
- Ensure that all paperwork is included and completed for further processing when a job is completed. Such as:
  - Signed of a maintenance order.
  - Shop drawings with, where applicable, the "as built" comments.

- List of materials used other than specified in the drawing.
- Equipment parts-heat number list.
  
- Inspect equipment within the department on a regular base. Lock-out and report mall-functioning or damaged equipment.
- Maintain and repair equipment within the department according to manufacturer's specifications.
- Where certification of equipment is required, ensure that only certified equipment is used
- Ensure daily reporting to fabrication supervisor.
- Other responsibilities as passed on by the fabrication supervisor.
